a fool can see the why. A town that is chiefly dependent for its support upon the agricultural interests which, on account of the impoverished condition of the lands and unfavorable seasons, are limited and uncertain, cannot expect booming business 12 months in the year. The dull time, must necessarily come when no money is being paid out for farm labor and when no

In urging the need of industrial enterprises we do not discount or disparage the mill that is already established in Edgefield. It will compare favorably with any other mill in the state of equal size. One semi-monthly pay roll, however, divided among so many does not appreciably increase the volume of business We

Mother's Friend.

Woman's greatest dream of beauty and glory is when nature has chosen her to become a mother. Every faculty is keenly alert and her nature the finest as she foresees the joy, the ambition, the success and the life-long satisfaction coming, coming nearer, day by day, in the dear and innocent being so soon to see light, and the very uncertainty whether she shall see a sweet girl face or a brave hoy face beside her on the pillow, adds zest to her expectancy. Then, if ever, she should take care of her physical, mental and moral health.

MOTHER'S FRILND applied externally throughout pregnancy will relieve the pain of parturition, and no mother and child can fail to be he lithy, hearty, strong clear complexioned, pure blooded, calm nerved and cheerful in disposition, who are mutually influenced for months by the continued use of Mother's Friend.
